- K Entrance Zurich Convention Center
- R Entrance Restaurant
- G Entrance Gartensaal
- A Entrance Gartensaalpassage
- S Entrance Seezimmer
- B Entrance Zurich Convention Center
- V Entrance Vortrags- and Vereinssäle

KONGRESSVESTIBÜL

The Kongressvestibül, centrally located in the building, can be reached via entrances K and B. It gains brightness from both sides and offers plenty of space. In the spacious welcome area at entrance K, the organiser can welcome his guests at his own counter. The green atrium opposite the listed cloakroom creates a friendly atmosphere, so that the Kongressvestibül invites you to stay. The bar near entrance B can be integrated into the event on request.

TONHALLE VESTIBÜL

The Tonhalle Vestibül is accessible via entrance T and is intended primarily for visitors to events in the Kleine Tonhalle and Grosse Tonhalle. The welcome desk is located in the entrance hall. Further back, a terrazzo stone floor opens up under bright columns and surrounded by exposed scraffito art. The character of the listed Tonhalle Vestibül gives an idea of how impressive the Kleine and Grosse Tonhalle on the next floor will be.

GARTENSAAL AREA

The extended Gartensaal area consists of Gartensaal 1 and 2 and the Gartensaalfoyer in between. The area is multifunctional, whether for a presentation in daylight with an LED screen, a banquet or an exhibition. Thanks to the movable partition walls, all three parts can also be used as a continuous area of up to 1,350sqm. Gartensaal 1 can be divided into the individual rooms Gartensaal 1A, 1B and 1C, offers direct access to the garden and impresses with room-high windows overlooking the lake and the Alps.

SEEZIMMER 1-8

The various Seezimmer impress with their view of Lake Zurich. All rooms can be reached quickly by stairs or lift. While Seezimmer 1 (level 00) has access to the garden, Seezimmer 3 (level 01) and 7 (level 02) each have a spacious balcony. Whether it is the division into three individual rooms (Seezimmer 1), a bar in the room (Seezimmer 2), the enlargement of the room (Seezimmer 3 and 4) or the possibility of a second room (Seezimmer 7 with 8) – the flexible use of the Seezimmer will also meet special customer wishes.
